

Pre-School Newsletter Summer 2018

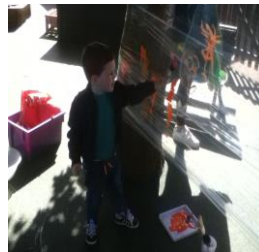

Pre-School have been very busy learning this term!

Share this newsletter with your child and talk about all the fun things they have been learning in Pre-School.

Fire Engine Visit

A wonderful big fire engine came to visit Pre-School and Nursery. We **pretended** to put out a fire, using a big water hose and even **explored** inside the fire engine.

Outdoor Learning Day

The children had lots of fun **learning** outdoors on Thursday 17th May. Children were very **creative**, using **natural** materials to make different **creations**.

The children **explored** soil, water, leaves and sand.....plus much more.

We were very lucky to have some very special visitors, a bearded dragon, a turtle and a lizard.

"**Very squiddy**", "**All soft and brown**", "**Awww cute**" were just some of the things the children said.

Why not have your own outdoor learning day and have lots of fun exploring outdoors.

We would love to see a moment from home to share.

Growing

We are learning about growing this term. The children are **nurturing** some bean plants and **observing** how tall the plants are growing. The children water and sing to the plants, showing care and concern for living things.
