## 'Wildwood Den' at Kingswood Nursery School

The previous equipment we had on site was rather dated and in need of repair, so we decided to move away from the norm and have something that was not only going to develop gross motor skills, but also imagination, problem solving and creativity.

We 'discovered' Lawrence and his company 'Wildwood Den'.

From the moment we met Lawrence we knew 'he got it' and understood our desire to have a structure that was open-ended, challenging, exciting and motivating for our Kingswood children.

Watching the construction was fascinating; it was like observing a sculptor at work.

Lawrence was fastidious in his attention to detail and he treated each beautiful piece of wood with loving care.

We could not be more delighted with our 'Wildwood Den'; it is a thing of beauty and we know it will develop our children's skills, on so many levels, and give hours of delight for a long time to come.

The end result has done all this and, most importantly, the children love it!
